

Eucharistic Miracles: 1996-2008

with Fr. Robert Spitzer, SJ, PhD
President of the Magis Center

The substance of living heart tissue grew out of three consecrated Eucharistic hosts in Buenos Aires, Argentina (1996); Tixtla, Mexico (2006); and Sokolka, Poland (2008).

Father Spitzer will summarize the historical background and the scientific tests and findings that show the scientifically and naturalistically inexplicable character of these hosts, pointing to the wounded heart of Jesus Christ in the Eucharist.

Eucharistic Miracles

"From the
Eucharist comes
strength to live the
Christian life and
zeal to share that
life with others."

- Pope John Paul II
